

ebullience

/ɪˈbʌlɪəns,ɪˈbʊlɪəns/

noun:

*the quality of being cheerful
and full of energy; exuberance.*

*Artist's Catalogue
June 2024*

All of the ART in this exhibition reflects Clare's sense of fun and generally sunny disposition (yes - quite annoying sometimes!), hence the title of the exhibition.

All of it is from the heart. How she is moved in the act of creating it.

But, there is no hidden message from the artist, it is what you see - and your imagination can make it anything.

If you have enjoyed the exhibition, please leave a comment in the book (it's on the windowsill) - you've probably heard how an artist does a little dance when someone buys a piece of their art...? Same happens when someone tells them how they enjoyed their work.

This is artist Clare Hines' first solo show, and its not just about the art she creates, it's a personal "Hello!" from the artist.

So, its designed to be fun, interactive (a bit); and not at all serious.

Art for Clare is something to do that's fun; that helps her make sense of the world; cheer her up when she's a bit blue or under the weather.

Clare thinks that ART is something everybody does, whether they know it or not. Your holiday snaps can be art - she certainly thinks some of her's are! Your selfies can be art and so can pictures of your loved ones... mainly cats in Clare's case.

Postcards from the Edge...

This was a happy accident that just made such sense put together like this.
The individual postcards are available...

postcards...

Each postcard tells part of the story...

... a deserted beach

...seafoam and wrack...

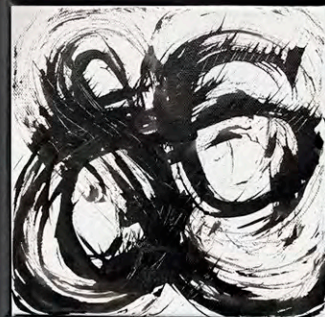

Hands

These are double or triple exposed photographs, with a bit of development.

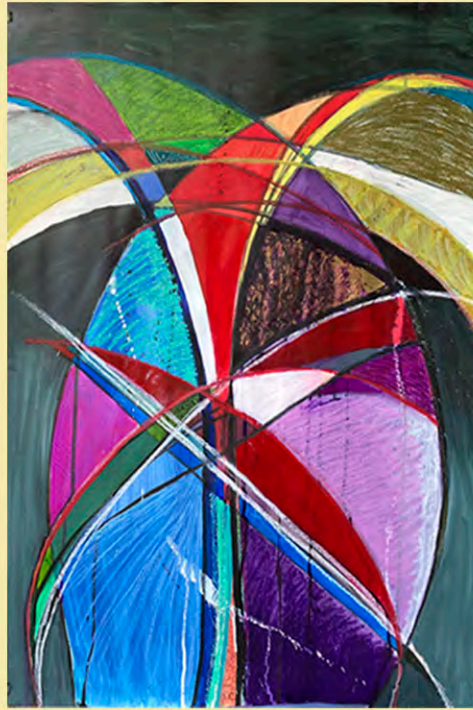

Op & Pop

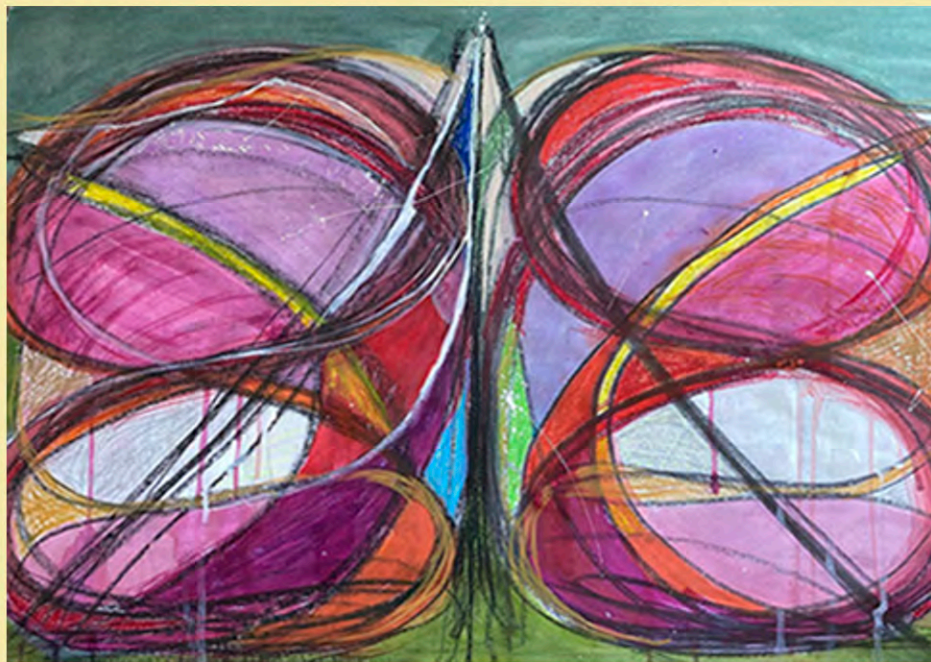

These started out as small black and white graphic art in India Ink...
and then digitally turned into colourful slogan art.

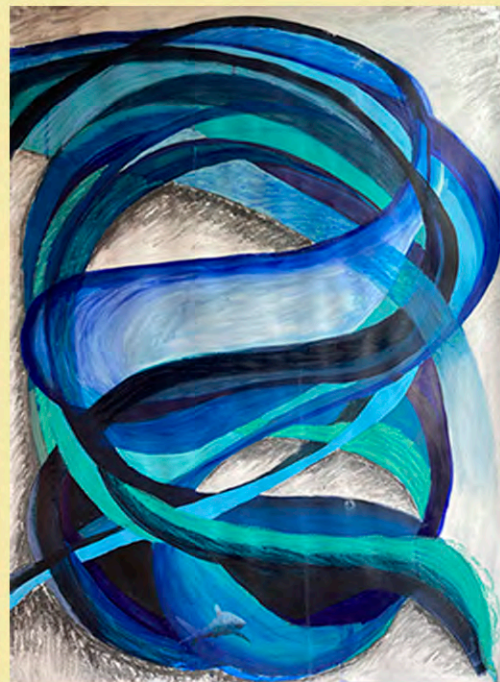

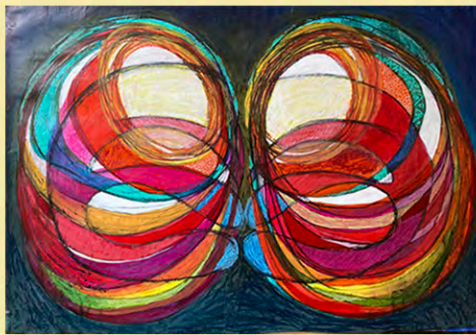

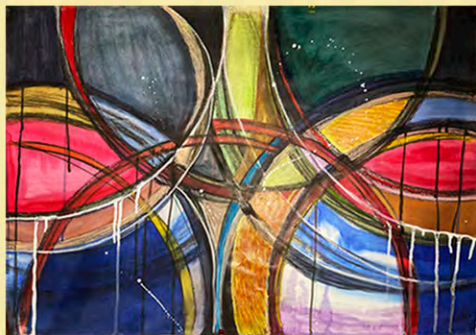

Gestural art...

developed from a workshop where we used the whole body to create the shapes. work led to a colour version and further development, to a series of organic flavour, texture and soul. This has in turn led onto other developments...

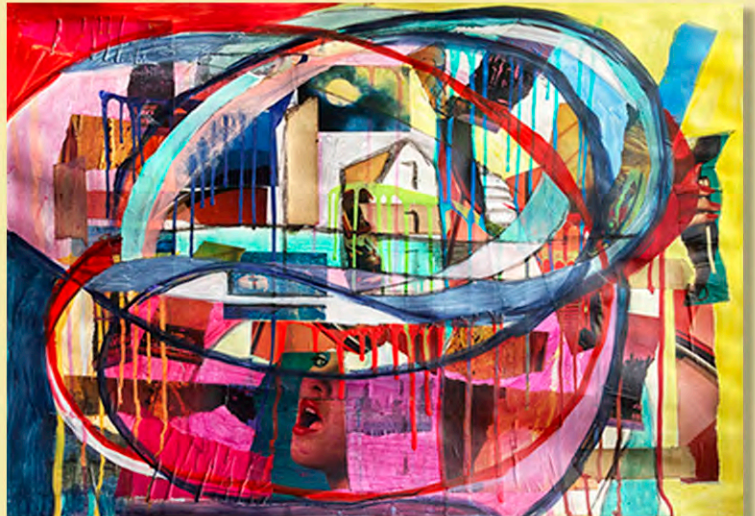

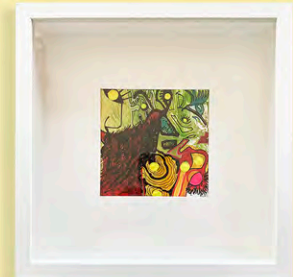

This series of pieces
Development of that early
shapes, each with their own

Collage

a whole series of collage /mixed-media works ensued.

Print

Different types of printing brings me great joy! I love the whole process - lots more to develop!

collagraphs
transfer
relief
mixed-media

Abstract

most of my work is quite...

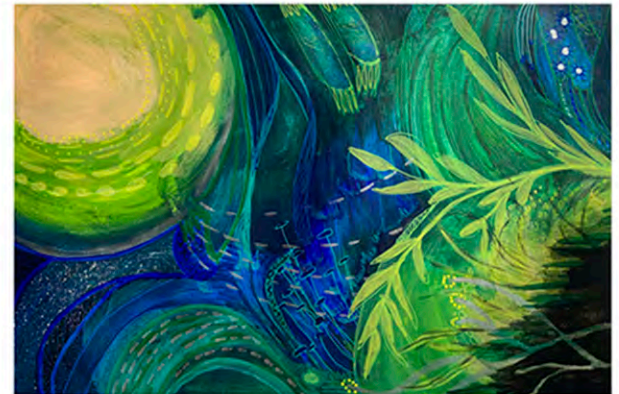

Heart of the Matter

SkyDrift

SeaFoam Tetraptych

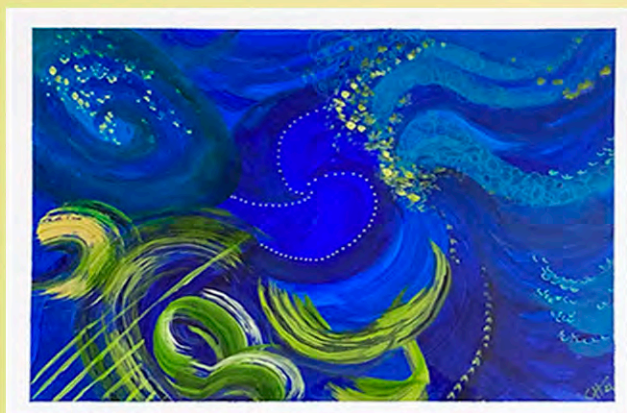

SeaLight

This still seems to be my first love for colour!

Grater Series

Eddies in SpaceTime

Evenin' Chillin'

Behind the Rind

3D work

I like making things - sculptures using Plaster of Paris; cardboard tubes; bits of stick.

Verdant Arcology - reminded me of sci-fi's living buildings - painted in acrylic.

Icon so reminds me of the Oscar's!

Airtime is a mobile... (pun intended).

Its a planet LED light - made with a very big SMILE;
oh! and lots of crystal headed pins with luminescent
paint too

@HisNeonCamel

Carnival Caravel - just too damn big to put anywhere else!
